Project Name	Digital Naturalist-AI Enabled Tool For Biodiversity Researches
Maximum Marks	4 Marks

Solution Architecture:

A complicated process with numerous sub-processes, solution architecture connects business issues with technological solutions. Its objectives are to

- Track down the most effective technological remedy for current business issues.
- Explain to project stakeholders the structure, traits, behaviour, and other features of the software.
- Specify the features, stages of development, and requirements for the solution.
- Offer guidelines for how the solution is created, managed, and delivered.
